MR. DUROC BREEDER—

If you have been actively engaged in breeding Durocs for the past five or six years you have noticed the increased demand for this, best of all, breed of swine and have carefully watched the growth of the National Duroc-Jersey Record Association, both in its great membership and resources. This association is now THE LARGEST SWINE RECORD ASSOCIATION IN THE WORLD, having at the present time over 5,800 members and this number is steadily increasing. On another page of this book appears a cut of our new up-to-date fire-proof office building, the entire first floor of which will be occupied by this association, and it is so arranged that as time and business demands the other floors can also be used by us. It is absolutely the finest building of its kind, owned by any similar association, and is the result of the past five or six years business done by us, and we feel justly proud of our efforts to make this the best record possible, and we feel that no little credit should be given the many breeders who have done much to advance the breed and its interests.

# THE DUROC-JERSEY

It seems to be well authenticated that the exact origin or early history of the Red Hog, now recorded as Duroc-Jersey, is not positively known. Many are of the opinion that they are strictly American bred, while we have gathered much information pointing toward stock that was imported at an early date. It is now conceded by all who are interested in this popular breed of swine that there were two families of them in earlier years, one known as Jersey Reds, and the other as Durocs. The name Jersey Red was probably given to this family by Joseph B. Lyman, who at that time resided in New Jersey and was the agricultural editor of the New York Tribune. Previous to this, the breed had been called Red Hogs.

Mr. Lippencott of New Jersey was the first person to advertise these hogs as Jersey Reds. We find in Clark Pettit's History of Jersey Reds, that in the year 1832 there was a pair of red pigs shipped from England to Salem, N. J., and he says: "Their unique color rendered them objects of special interest in a locality long noted for successful swine breeders and feeders, among whom had long existed a great spirit of rivalry as to whom should annually win the honor of raising the best lot of hogs, making the greatest average weight at different ages, for which prominent Philadelphia butchers paid advanced prices." The Duroc family of Red Hogs were so called by Isaac Frink, a farmer living in the town of Milton, Saratoga County, N. Y. In the spring of 1832 Mr. Frink took a mare to a noted stallion, Duroc, then owned by Harry Kelsey, in the town of Florida, N. Y., about twenty-five miles away, and he saw a litter of ten red pigs, the production of a pair of red pigs brought here by Mr. Kelsey from Oyster Bay, N. Y., or imported by him from England. He moved from Oyster Bay to Florida. In regard to the importance of the pigs, the history is not authentic, although Mr. Kelsey told Mr. Frink that they were imported, but the term imported may have been improperly used, as is often the case, even at this late date. The production of these pigs was much sought after, and assumed the name of Mr. Kelsey's famous stallion, and spread all through the New England states, becoming very popular on account of their great qualities. In 1830 William Ensign of Wilbur's Basin, in the town of Stillwater, brought a pair of red hogs from Connecticut and in the next year he got a few more from the same place. He bred and sold them far and near. The Frink and Ensign families of Red Hogs were crossed and bred to advantage, and have been bred ever since with more or less effort toward keeping them thoroughbred, but no model or type was followed except individual ones. These hogs, according to what information we can get, possessed more of the character of the Jersey Red family, except that they were not so large and were rather finer boned. Thomas Bennett, of Rossville, Ill., through correspondence with the Honorable Cassius N. Clay, of White Hall, Ky., the honorable gentleman says: "that the Spanish hogs were imported by Honorable J. B. Clay, from Spain or Portugal, when minister to Lisbon, under Zachary Taylor in 1850. He gave me a pair of the progeny of which I widely distributed." About the year 1882 the first association was organized to perpetuate the records of the Duroc, while in 1891 the National Association was organized and incorporated, with J. M. Stonebraker as president, and J. W. Phillippo as secretary. On April 10, 1893, the resignation of Mr. Phillippo as secretary was accepted and Robert J. Evans was elected secretary, remaining such until June 8, 1906, when H. C. Sheldon was elected, and remained secretary until December 2, 1909, when the present secretary was elected.

No characteristic of our breed is more pronounced at the present time or perhaps no other has been of so much value to our breed in making them popular as that of being prolific. Years ago, when our breed was in its infancy, breeders of other breeds turned to us on account of the great prolificacy of the Duroc sows. The conformation of our breed has been greatly improved with recent years, but this improvement has been brought about without sacrificing any of the prolificacy. In fact, our records show that the Duroc sows are more prolific today than they were twenty years ago. Out of a record of 4,800 litters in Volume No. 44 of our Herd Book, they show an average of 9.43 pigs to the litter. In fact, some criticize our breed on account of the sows

farrowing larger litters than it is possible for the sow to raise. We think this is a very good criticism. Recent reports from one of the leading agricultural experiment stations states that thirteen Duroc sows farrowed 132 live pigs, raising 101 of them, a much larger average than did any of the other breeds owned by this college. The excessive hardiness of our breed is one of the characteristics conceded to us by most raisers of other breeds of hogs. The pigs when farrowed are exceedingly strong and active and so are able to withstand many hardships that animals of weaker constitutions could not withstand. It is a very common occurence for a Duroc sow to raise ten strong pigs at a litter. The feeding qualities of our breed are one of our most boasted assets. The Michigan Agricultural College makes us a table showing that for 4.65 pounds of grain fed to Durocs they produced a gain of 2.59 pounds per day for 168 days, and the animals at the close of the said period were showing splendid gains and gave promise that they could make similar gains for an extended period of time, while the closest breed compared showed 5.22 pounds of grain for 2.11 pounds of gain. Owing to the conformation and hardiness of our breed they are capable of making profitable gains where animals of other breeds would not be profitable, on account of our animals being able to convert into pork more grasses and rough feed than most other breeds.

In the conformation of the Duroc there is everything that is for the purpose of converting grains and grasses into pork. They have good feet, short pasterns, heavy bone, all necessary to carry the animal to market or to carry it about the farm, gathering up the waste feeds, which otherwise would be lost. His high arched back, his large heart girth and wide spring of ribs gives room for the development of the organs that will convert grains and grasses into pork. The broad head indicates nerve power and feeding type, with bright eye and ear not too large, allows the animal to rustle in the feed lots and in the pasture to good advantage.

The above characteristics adapt the Duroc for any locality. In the far north of Canada he converts the small grain into as high-grade pork as any breed, with a much larger per cent of profit. He is proving a favorite in the hills of New England on account of his ruggedness and power to convert their by-products into fancy hams and premium bacon. No part of the country has afforded him such a welcome as the far South, where the cotton and sugar cane planters are fast becoming producers of pork, and the Duroc has proven that he will withstand the severe heat and convert the alfalfa, peanuts, oats and wheat into pork for the Fort Worth market, with a handsome return for labor and capital invested. Across the Rocky mountains the alfalfa and small grain farmers are fast realizing that the Duroc can be raised with a handsome profit on the crops they raise, saving them the expense of shipping thousands of head each year from the corn belt to supply their markets.

The interest in Duroc does not stop with our border, but extends into Australia and South American countries, which are only in their infancy as to producing pork. The present popularity of our breed, which includes, on good authority, 75 per cent of the hogs raised, is due to the fact that our breed has proven profitable to the farmer. The farmer raises the kind of hogs that are most profitable to him in the majority of cases. He demands an animal with constitution sufficient to withstand the ordinary conditions which surround him and at the same time be able to convert the products of his farm into pork at a profit. In addition to raising a large litter of pigs, a young Duroc sow will make a splendid growth, so that when the litter is weaned she can be easily finished for the market. It is quite a compliment to a feeder to be able to top the market when his hogs are sold, but many times the market topping animals are not the animals produced at the most profit to the farmer. On account of the ruggedness and capacity for handling rough feed, the Duroc makes splendid growth at an early age. The engine in the hog which converts grain and grasses into pork is largely offal at the abattoir, but by breeding an animal with a smaller engine you decrease the capacity for converting large quantities of rough feed into pork, and thus reduce the profit on the animal. At the recent International Live Stock Show it was very noticeable in the class for grand champion, the Duroc barrow of practically the same age as his competitors was at least 200 pounds the heavier, which on the scales that day would have meant at least $16.00 more value. Farmers are raising hogs for the money they will bring and the Duroc has proven on all occasions his ability to produce pork at a profit.

## MINUTES OF MEETING OF BOARD OF DIRECTORS

## OF

## THE NATIONAL DUROC JERSEY RECORD ASSOCIATION.

**December 2, 1915.**

Peoria, Ill., December 2, 1915.

Meeting of the Board of Directors was called to order by President Hockett, at 9 o'clock A. M. Members present were John Clatterbuck, H. Smith, F. S. Vanderhyde, W. A. Williams, R. L. Comer, and Geo. M. Klusmire.

Much of the time of the Board of Directors at each session is taken up with the consideration of complaints lodged by both buyer and seller of animals relative to settlement and delivery of pedigrees.

It was suggested by the Secretary that the President appoint a Committee to prepare a resolution that might appear on the minutes of this Board for the benefit of our members. The Chair appointed on this Committee, W. A. Williams, H. Smith, and F. S. Vanderhyde.

A letter was read by the Secretary received from Mr. John H. Page, of Little Rock, Ark., relative to the advisability of holding a sale during the Arkansas Stock Growers' Association meeting at Little Rock, January 11th to 13th, and the Chair appointed as a Committee: W. A. Williams, John Clatterbuck and E. Z. Russell.

It was the sense of the meeting that the interest being shown in Durocs in the Southern States east of the Mississippi River now warranted that our Record Association be represented at all the leading swine events and the Secretary was instructed to see that our Association had such representation, and a motion to that effect was made by Geo. M. Klusmire, seconded by H. Smith, and carried by the unanimous vote of the members present.

A request was presented by W. A. Williams, as President of the Oklahoma Swine Breeders' Association, asking that our Association be represented at their next meeting to be held in January. It was the sense of the meeting that G. W. Hockett attend this meeting and a motion to that effect was presented by H. Smith, seconded by John Clatterbuck, and passed by the unanimous vote of the members present.

The matter of controversy between Mr. Frank Alldritt, and Wm. Kreaman, which is a matter of record in the minutes of our June, 1915 meeting, was again considered, also the additional information which had been gathered and the Secretary instructed to record the two pedigrees for Mr. Kreaman without further delay, and send them to him. This action was taken after motion by R. L. Comer, seconded by F. S. Vanderhyde, had been passed by unanimous vote of the members of the Board.

No further business appearing before the Board, they adjourned.

RESOLUTION.

Whereas it is the sense of the Directors of the National Duroc Jersey Record Association that they should hold the present bids submitted for their approval, open at the present time for the consideration of securing desirable lease, for the second story, and whereas it is the sense of the officers and directors of the National Duroc Jersey Record Association, that in event suitable lease from responsible parties be secured for second story, it is advisable to make the building three stories above basement, therefore, be it resolved, the President appoint a committee of three, to act as a building committee, and that they be empowered to act in this matter, and be it further resolved that in case a guaranteed lease can be secured, for a period of five years, at a rental of not less than $100.00 per month, they act on the proposition of making the building three stories above basement, providing the bids on such building do not bring the cost of erecting such building to exceed $5,000.00 more than a 2 story building. But in event of aforesaid condition cannot be brought about, said committee be empowered to act in the erection of the two-story building. Be it further resolved that the building committee be empowered to enter into contracts for the placing in the new building of the necessary plumbing and heating appliances.

The President then reviewed the work of the past year, going into detail as to proposed building which this Association propcses to build the coming year, and have ready to occupy by September 1st, 1916, at a cost of perhaps $35,000.00. It was also his opinion that the Board of Directors should in the future be more liberal in their appropriation for premiums at the different shows, as a means of promoting the best interests of the breed. He asked the stockholders to give particular attention to the reports of the officers and to notice the splendid condition of our Association in a financial way.

Following is report of Executive Committee:

Peoria, Ill., Dec. 3, 1915.

Stockholders National Duroc-Jersey Record Association:

Your Executive Committee would submit the following report for the year commencing December 1, 1914 and ending November 30, 1915:

We have examined the books ,reports and accounts of the Secretary and Treasurer and find that they agree as follows:

The Secretary received from all sources $31,375.89, which has been turned over to the Treasurer, as shown by his books. During the year the Secretary drew warrants to the amount of $30,792.28. Of this amount warrants to the amount of $3,155.55 have not yet been presented to the Treasurer for payment, consequently outstanding.

We find that on December 1, 1914, the Treasurer had on hand total funds to the amount of $50,103.32. This amount plus the receipts from the Secretary as shown by the reports, $31,375.89, and interest on Farm Loans, $2,834.95, and interest on daily balances, $45.93, making a total of $84,360.09, less warrants paid $22,106,17, leaves us a balance with the Treasurer on this date of $62,253.92.

This amount agrees with the books of the Treasurer and includes the following items:

| | |
|---|---|
| In Plateau State Bank, Herman, Neb | $ 2,685.01 |
| In Citizen's State Bank, Blair, Neb | 539.86 |
| In Osceola State Bank, Osceola, Neb | 2,000.00 |
| In Farmers' and Merchant's Bank, Benson, Neb | 1,000.00 |
| Check, J. R. Pfander, October | 2,563.74 |
| Check, J. R. Pfander, November | 2,832.01 |
| In First Mortgage Farm Loans | 46,100.00 |
| City lot in Peoria, Ill | 4,533.30 |
| | $62,253.92 |
| Add to this amount interest earned, but not due on farm loans | 977.22 |
| Also Inventory of property in the office at Peoria, Ill., makes a total of | 3,685.95 |
| | $66,917.09 |
| From this we deduct cost of printing volumes already recorded and paid for | 2,778.00 |
| Also the amounts of unpaid warrants | 3,155.55 |
| Leaves our net worth at this date | $60,983.54 |
| Our net worth Nov. 30, 1914 was | 49,463.53 |
| Which shows a gain in our net worth at this date over the amount of one year ago | $11,520.01 |
| Deduct from this the capital stock sold during the past year | 5,260.00 |
| Leaves a net profit above all expenses during the year | $ 6,260.01 |

Respectfully submitted,

JOHN CLATTERBUCK,
H. SMITH.

W. A. Williams nominated J. J. McLain, Anna, Texas, for President, who moved that nominations close and the Secretary be instructed to cast the entire vote for Mr. McLain for President for the ensuing year. This motion was seconded by G. L. Avery, and was duly put and the Secretary cast the vote as instructed, so the Chairman declared Mr. McLain elected President.

E. Z. Russell nominated G. G. Luthy, of Peoria, Ill., for First Vice-president, who moved that nominations be closed, and the Secretary instructed to cast the entire vote for Mr. Luthy for First Vice-president for the ensuing year. Hockett elected members of the Board of Directors for three years.

The following resolutions were presented by E. Z. Russell:

## RESOLUTIONS.

In the recent outbreak of Foot and Mouth Disease, it has been thoroughly demonstrated that the work has been seriously hindred on account of Federal and State authorities not being able to pay owners of pure bred herds their full value. Therefore, be it resolved, that this Association earnestly urges members of State Legislatures and of Congress to so amend their laws that any or all stock slaughtered by State or Federal authorities in combating infectious animal diseases, be paid according to their full value as pedigreed animals, in case they are such.

The experience of the officials and stockmen in combating the present outbreak of Foot and Mouth Disease in our opinion, is sufficient to show that the present method of quarantine is not the best;

Therefore, be it resolved, that this Association earnestly requests State and Federal authorities having the quarantine regulations in charge to so frame their rules and laws that quarantine will be established in the future by area or districts and not by Townships, Counties or States. The quarantine area should be the amount of territory in the opinion of officials in charge necessary regardless of whether or not this area includes one or more Townships, Counties or States.

Be it resolved, that in our opinion the best interests of Live Stock Industry of the United States would be conserved by Congress so amending the status that the Chief of Animal Industry may be a man other than a Scientist of Profession.

After much discussion, motion was made by H. E. Browning, seconded by J. J. Doty, to adopt the resolution and ordered them spread on the minutes of the meeting, was passed by the unanimous vote of all stockholders present.

Much discussion was engaged in relative to the recent decision of the Iowa Supreme Court relative to the responsibility of Record Associations toward recorded certificates which they issue.

The following motion by H. E. Browning, seconded by Geo. M. Klusmire, was passed by the unanimous vote: "That the Chairman appoint a committee of three to confer with our Attorney and prepare a clause to be inserted on all recorded certificates issued by this Record Association, releasing the Association

from all responsibility relative to errors in recorded pedigrees and any misrepresentations made on original pedigrees filed with this Association for record."

The Chairman appointed on this committee J. J. McLain, G. G. Luthy and W. A. Williams, who after conferring with the Attorney, submitted the following clause, and ordered the Secretary to have the same inserted on all recorded certificates which were issued in the future by this Association:

> *Clause*—"Certificates of registry are issued solely upon the representations contained in the application for the same and copies of which said applications may be had upon request to the Secretary."

Mr. R. L. Comer and others spoke relative to the advisability of a National Duroc-Jersey Show and made the followihg motion: "That the Chairman appoint a committee of three to confer with a like committee from the American Duroc-Jersey Breeders' Association, with full power to act in making arrangements for a National Duroc-Jersey Record Show to be held in 1916."

This motion after being duly seconded by E. Z. Russell, was carried by unanimous vote.

The Chair appointed on this committee: J. R. Pfander, Chairman, J. J. Doty, and G. G. Luthy.

No further business appearing before the meeting, they adjourned.

(Signed) G. W. HOCKETT, *Pres.*
J. R. PFANDER, *Sec'y.*
